D

PBMC.mod14:
Enrichment Terms
Natural killer cell mediated cytotoxicity
Allograft Rejection
Graft−versus−host disease
Antigen processing and presentation
Th1 and Th2 cell differentiation
T cell receptor signaling pathway
Malaria
Cell adhesion molecules
Interferon Gamma Response

G

PBMC.mod8:
Enrichment Terms
Protein processing in endoplasmic reticulum
N−Glycan biosynthesis
Unfolded Protein Response
mTORC1 Signaling
Various types of N−glycan biosynthesis
Amino sugar and nucleotide sugar metabolism
Protein export
Myc Targets V1
Fructose and mannose metabolism
